

# SHIFT ESPRESSO

WhatsApp Business Platform

---

Smart Ordering | Loyalty Stamps | AI Assistant

## Franchise Owner Presentation

June 2026 | 11 Swemmer Rd, Silvamonte, Johannesburg

# The Challenge

Coffee shops today face:

- Long queues during peak hours driving customers away
- No way to remember regular customers or their preferences
- Paper stamp cards get lost, forgotten, or faked
- No direct communication channel with customers
- Competitors launching ordering apps (e.g. OrderUp!)

**The Solution: WhatsApp -- already on every customer's phone.**

No app download. No new accounts. Customers scan a QR and they're connected instantly.

# What FlowDesk Does for Shift Espresso

One platform to run your entire customer experience through WhatsApp

**1**

## WhatsApp Ordering

Customers order via WhatsApp with AI assistance. No app needed.

**2**

## Loyalty Stamp Cards

Digital stamps, free coffees, automated WhatsApp confirmations.

**3**

## AI Assistant (24/7)

Answers questions, takes orders, remembers every customer.

**4**

## Gift Cards

Send a coffee to a friend via WhatsApp. Redeemable in-store.

**5**

## Group Ordering

Office coffee runs made easy. Everyone adds their order.

**6**

## Campaigns & Marketing

Send promos, specials, and updates to your customer base.

# Smart WhatsApp Ordering

- Customer scans QR code at the counter or table
- Opens WhatsApp with pre-filled message -- no app download
- AI understands natural language: "2 cappuccinos and a muffin please"
- Shows order summary with prices, VAT breakdown, and total
- Customer confirms with YES -- order appears on staff dashboard
- Supports pickup (with time) and dine-in (with table number)

**Staff see orders in real-time on the FlowDesk dashboard -- confirm, prepare, complete.**

# Digital Loyalty Stamp Cards

- Customer scans counter QR to join loyalty programme automatically
- Every purchase earns a stamp -- staff clicks one button
- Customer gets WhatsApp confirmation: "You now have 7/10 stamps!"
- 10th stamp = free coffee, banked automatically (never lost)
- Free coffees accumulate -- busy staff can keep stamping, redeem later
- Full stamp history with dates -- no disputes, no faking

**No paper cards to lose**

Everything digital on WhatsApp

**Can't be faked**

Every stamp timestamped in database

## AI Assistant -- Always On

- Powered by Claude AI -- responds to customers 24/7
- Answers FAQs: location, hours, menu, wifi, parking
- Remembers every customer by name and preferences
- Knows the full menu with prices -- helps customers choose
- Directs ordering to the order system -- never makes false promises
- Escalates complaints to staff automatically

**"Hey Thabo, the usual flat white?" -- AI knows your regulars.**

# Gift Cards & Group Ordering

## Send a Coffee

- "Send a coffee to my friend" -- customer messages on WhatsApp
- Friend receives WhatsApp with gift code to redeem at the counter
- Staff redeems code on FlowDesk dashboard -- tracked and verified

## Group Ordering

- "Group order" -- creates a code, share it with the office
- Each person adds their item via WhatsApp using the code
- Organiser closes the order -- staff gets one combined list

# Marketing Campaigns

- Send WhatsApp messages to all customers or selected groups
- AI writes the campaign copy for you -- just describe what you want
- Target specific contacts with checkboxes or by tags (VIP, regulars, new)
- Track delivery, read rates, and engagement
- Schedule campaigns in advance or send immediately
- Opt-out management -- customers who reply STOP are automatically removed

**Example: 'Winter specials are here! Spiced chai lattes and toasted sandwiches. Pop in!'**

# Dashboard & Reporting

- Real-time dashboard: contacts, orders, messages, campaigns at a glance
- Daily report: orders, revenue, new customers, loyalty activity
- Auto-send daily report to owner on WhatsApp
- Schedule view: daily timeline, weekly grid, monthly calendar
- Full message inbox with customer history
- Works on phone, tablet, and desktop -- fully mobile responsive

# Why WhatsApp Beats a Download App

## Download App (OrderUp etc.)

Requires app download

New account signup needed

Competes for phone space

No personal memory

Generic ordering only

User has to open the app

## FlowDesk via WhatsApp

Already on every phone

Scan QR and you're in

Uses existing WhatsApp

AI remembers every customer

Ordering + loyalty + gifts + campaigns

Business can message the customer

# Setup for Each Location

1

## Connect WhatsApp

Link your WhatsApp Business number to FlowDesk

2

## Set Up Menu & FAQs

Add your menu, prices, hours, and location. AI learns it all.

3

## Print QR Codes

Counter QR (loyalty), table QR (ordering), window QR (marketing)

4

## Go Live

Customers scan, order, earn stamps, and chat -- all on WhatsApp

# SHIFT ESPRESSO

The smartest coffee shop on WhatsApp.

---

No downloads. No friction. Just great coffee.

## Ready to get started?

Each location gets its own workspace, WhatsApp number, and AI assistant.
